

80th New England

Complex Fluids Workshop

Invited Speakers Wim M. van Rees, MIT
Allyson Sgro, BU
Tal Cohen, MIT
Daniel Harris, Brown

Friday, September 20, 2019

Shapiro Campus Center

Brandeis University

Waltham, Massachusetts

9:30 a.m. – 4:30 p.m.

Topics of invited talks design rules of shape change,
Dicty dynamics, chemical oscillations,
material growth in biological systems,
particle aggregation at interfaces.

Objectives Intended for Soft Matter academic and industrial scientists in New England to share research results, network and promote collaborations.

Sound bites Two sessions of **4 minute** sound bites contributed by participants to highlight results from current research projects.

Organizer Seth Fraden, Complex Fluids Group, Brandeis University
fraden@brandeis.edu

Website complexfluids.org (registration required)

Parking contact Dawn Mitchell, dmitchell@brandeis.edu

**Sponsored by the Brandeis NSF – MRSEC
Bioinspired Soft Materials**
